## **FOR IMMEDIATE RELEASE**

### **ROBERT B. LUTZ PROMOTED TO STV VICE PRESIDENT**

DALLAS, March 1, 2005 – Robert B. Lutz, P.E., a senior associate with STV Incorporated, was recently promoted to vice president. Lutz has over 35 years of experience managing complex transportation projects and is a specialist in overseeing large-scale highway and rail rapid transit development programs. He currently serves as General Engineering Consultant program manager for the \$2 billion Dallas Area Rapid Transit (DART) Phase II Extension, which will double the size of the 46-mile light rail system.

Since joining STV in 1999, Lutz has served in management capacities for transit projects in Texas and Phoenix, Ariz. Prior to joining the firm, he was project manager for design and construction management for key DART line sections, including the 3.5-mile North Central Tunnel and the Trinity River Bridge. His background includes transit programs throughout the United States, as well as major highway and site development programs on four continents.

A member of the American Society of Civil Engineers, Lutz received his Bachelor of Science in management engineering from Rensselaer Polytechnic Institute. He is a registered professional engineer in Texas and Hawaii.

Lutz resides in Garland, Texas.

STV is an engineering, architectural, planning, environmental and construction management firm employing more than 1,200 personnel in offices nationwide. The firm is a national leader in the planning and design of transportation systems, infrastructure and facilities, and was ranked 5th in Mass Transit and Rail in *Engineering News-Record's* Top 500 Design Firms survey. An employee-owned firm, STV maintains a web site at [www.stvinc.com](http://www.stvinc.com).
