FOR IMMEDIATE RELEASE

KEITH C. MACKENZIE NAMED VICE PRESIDENT OF STV

CHICAGO, March 1, 2005 – STV Incorporated has announced that Keith C. MacKenzie, P.E., has been promoted to vice president and chief engineer/operations manager for the firm's Midwest Region, which includes offices in Chicago; Kenosha, WI; and St. Louis. In this position, MacKenzie is responsible for project management, and the technical quality of projects undertaken by the firm's Midwest Region.

MacKenzie has more than 15 years of experience in managing diverse projects, including transportation facilities, hospitals, research centers, and institutional facilities. Since joining STV in 1994, he has worked on an array of projects across many technical disciplines. He is currently the deputy project manager for the Chicago Transit Authority's Block 37 program involving the design of two short mine tunnels to connect the Blue and Red transit lines in Chicago. MacKenzie was recently project manager for the Massachusetts Bay Transportation Authority's South Boston Piers Transitway Courthouse Station project in South Boston.

MacKenzie received his Bachelor of Science, Civil Engineering from the University of Connecticut, and his Master of Science in structures and solid mechanics from Colorado State University. He is a registered professional engineer and a certified Project Management Professional.

MacKenzie is a resident of Wilmette, IL.

An employee-owned firm, STV is a national leader in the planning and design of infrastructure, transportation systems and facilities. With more than 1,200 employees, the firm provides complete engineering, architectural, planning, environmental, and construction management services. STV ranks 11th in the category of Transportation in *Engineering News-Record's* Top 500 Design Firms survey. For more information, see STV's web site at www.stvinc.com.
