FOR IMMEDIATE RELEASE

WMATA Morgan Boulevard Station Wins AIA Northern Virginia Chapter Award of Excellence

VIENNA, VA, July 13, 2005 – The WMATA Morgan Boulevard Station in Landover, MD, designed by architect STV Incorporated as part of HSMM/STV, A Joint Venture, was recently presented an Award of Excellence in the Northern Virginia Chapter of the American Institute of Architects' 2005 Design Awards. The project was the top winner in the competition's Institutional Architecture category.

The Morgan Boulevard Station is part of the Washington Metropolitan Area Transit Authority's Blue Line Extension to Largo Town Center, a design-build contract with Clark-Kiewit Largo, a joint venture of Clark Construction Group, Inc., of Bethesda, MD, and Kiewit Construction Company of Omaha, NE. HSMM/STV, Clark-Kiewit's architectural and engineering subcontractor, is the joint venture of Hayes, Seay, Mattern & Mattern, Inc., Roanoke, VA, and STV Incorporated, Vienna, VA.

Built using the design-build delivery method, Morgan Boulevard Station is a bold departure from the original metro system design and presents a clean, futuristic look that will serve as a model for WMATA as it moves forward in the 21st century.

The annual AIA Northern Virginia Chapter Design Awards were created to recognize member achievements in the design of the built environment and commitment to design excellence.

The architect for the Morgan Boulevard Station, STV is an architectural, engineering, planning, environmental and construction management firm employing more than 1,200 personnel in 22 offices nationwide. An employee-owned company, STV maintains a web site at www.stvinc.com.

HSMM is an architectural, engineering and planning firm employing nearly 600 personnel in 17 offices throughout the United States. The company managed overall design and construction administration on the WMATA Blue Line Extension Stations and Parking Facilities project. HSMM's web site is www.hsmm.com.
